

Mobile Developer/Programmer, Site Security Management software

Innovative is seeking for a full-time mobile developer for our development team in the heart of Copenhagen.

Do you dream about working with mobile development in a solid software company in growth?

- Do you have practical experience with mobile development in Xamarin?
- Are you experienced in C# and .NET?
- Is it natural for you to document your work?
- Are you responsible and self-driven?
- Would you like to work in an environment with close cooperation with other developers?
- If you have experience with TDD (Test Driven Development), it would be an advantage

If you can answer "YES" to the above questions, then you may be the right person to help us develop mobile apps that support and increase the functionality of our task management system.

Innovative Business Software A/S, has since 1982 developed software solutions for the largest private security companies and public authorities, locally as well as globally.

You come to the company at a favorable time. We are undertaking many new strategic initiatives, such as bringing our solutions to brand new markets and further development of solutions for new technology platforms, with a strong focus on customer satisfaction.

Innovative offers you:

- An energetic workplace in strong growth, with top motivated colleagues
- Being part of a competent and highly dynamic development team
- Independent working conditions
- An informal working atmosphere in a nice location next to the Round Tower
- An annual team building trip with the company
- Salary that corresponds to your experience and that meets the requirements of the position. Pension, healthcare, as well as other benefits such as telephone, laptop, breakfast, lunch, etc.

ABOUT INNOVATIVE:

Innovative Business Software A/S is a Danish company, which for more than 30 years, has developed incident management solutions for private and public alarm receiving centres, airports, police forces, fire departments, private security and university campuses. We are currently about 30 skilled and committed employees. The company's main office is located at Landemærket, in the center of Copenhagen. Quality, credibility and trust are some of our core values.

If you are interested, please send your application and CV no later than 9 April 2018 to:
